

## Sustainability Audit – SUMMARY

Improving sustainability without compromising safety is the key to ensuring a healthy, connected, compliant, impactful and cost-efficient service. It's attainable through my **Sustainability Audit**.

The Sustainability Audit assesses your service (ECC, OOSH, or School) against my **five sustainability pillars**:

- 1) Waste
- 2) Greenery
- 3) Behaviour
- 4) Resourcing
- 5) Energy

The audit consists of:

- Centre visit (up to 2hrs). NOTE: via zoom if outside Sydney metro
- Written audit report (within 14 days from the centre visit).  
This report has **two sections**:
  - 1) High five (what you're doing well against each of the five sustainability pillars), and
  - 2) Recommendations (what needs to improve).
- Video walk-through summarizing the report insights
- Some of my resources (e.g. Greenery Guidebook, bonuses, templates) for free
- One of my online courses of your choice for free
- One free consultation

**The price is \$300.**

To book an audit, use the contact details below. I look forward to helping you make a sustainable difference. You can read testimonials from other services on my website.
